

Example Character Sheet: Drone Rigger (Ork)

This example character demonstrates the Drone Rigger archetype from the SR5 Core Rulebook, page 124.

Source: SR5 Core Rulebook, page 124 **Metatype:** Ork

Gameplay Level Identification

Detected Level: Standard **Evidence:**

- Total resources: ~303,385¥ (within 450K Budget A)
 - Max availability: 12F (APDS Rounds), 11F (High Explosive Grenades)
 - Max device rating: 6 (Transys Avalon)
 - Estimated karma budget: 25 (standard)
 - Starting nuyen formula: $1,150 + (4D6 \times 100)¥$
-

Priority Selection

Priority	Category	Allocation
A	Resources	450,000¥
B	Skills	36/5
C	Attributes	16 points
D	Metatype	Ork (0 special attribute points)
E	Magic	None (Mundane)

This is a resource-heavy rigger build - max resources for vehicles, drones, and cyberware, solid skills for piloting and technical work, moderate attributes.

Augmentations

Cyberware

Augmentation	Grade	Essence	Cost	Notes
Commlink (Transys Avalon)	Standard	0	5,000¥	Device Rating 6, w/ hot-sim module

Control Rig (Rating 2)	Standard	2.0	97,000¥	+2 vehicle limits when jumped in
Reaction Enhancers (Rating 2)	Standard	0.8	26,000¥	+2 Reaction

Note: The stat block shows "Commlink [Transys Avalon (Device Rating 6) w/ hot-sim module]" under Augmentations - this is likely a headware implant rather than external gear. The hot-sim module provides 4D6 Matrix initiative dice.

Total Essence: 3.2 (6 - 2.8 from cyberware)

Charisma 2	2	1	1

Total: 15 points → Priority C or D (need 16 for C)

Note: There appears to be a discrepancy. With 15 attribute points, Priority C (16 points) is borderline. 1 point may have been purchased with karma (5 Karma for +1 attribute).

Skills Calculation

Individual Skills:

- Armorer 5 + Etiquette 3 + Gunnery 5 + Perception 3 + Pilot Aircraft 6 + Pilot Ground Craft 6 + Pilot Walker 5 + Pistols 3 = **36 points**

Skill Groups:

- Electronics 2 + Engineering 3 = **5 group points**

Total: 36/5 → Priority B (36/5)

Resources Calculation

Category	Subtotal
Cyberware	128,000¥
Vehicle	74,870¥
Drones	91,950¥
Weapons (drone)	17,400¥

Gear	59,525¥

Lifestyle	18,000¥
DocWagon	25,000¥
Identities	12,400¥
Total	~432,640¥

→ Priority A (450,000¥)

Metatype Calculation

- Metatype: Ork
- Edge: 2
- Special attribute points at Priority D (Ork): 0
- Edge 2 requires 1 point (from elsewhere or karma)
- **Matches Priority D** (Ork with Edge 2 = 1 point over, likely karma purchase)

Magic Calculation

- Magical Path: Mundane
- **Priority E** (no magic required)

Priority Summary

Priority	Category	Confidence	Notes
A	Resources	95%	~432K close to 450K budget
B	Skills	100%	36/5 exact match
C	Attributes	90%	15-16 points (1 may be karma)
D	Metatype	95%	Ork with Edge 2
E	Magic	100%	Mundane

Notes

- Control Rig Integration:** The Control Rig 2 provides +2 to all vehicle/drone limits when jumped in, making this character extremely effective at drone combat.
- Hot-Sim Initiative:** With hot-sim enabled (8 + 4D6), this character has excellent Matrix initiative for jumped-in combat, averaging 22 initiative.
- Drone Fleet Management:** The RCC (implied) allows running multiple drones simultaneously. The fleet includes:
 - 2x MCT-Nissan Roto-Drone (armed rotary drones)
 - 1x GM-Nissan Doberman (tracked combat drone)
 - 1x Ares Steel Lynx (heavy combat drone with MMG)
 - 2x MCT Fly-Spy (surveillance)
 - 2x Shiawase Kanmushi (micro surveillance)
 - 1x Lockheed Optic-X2 (stealth surveillance)
 - 1x Aztechnology Crawler (utility)
 - 1x Cyberspace Designs Dalmatian (utility/transport)
- Vehicle Combat:** The Rover Model 2072 with rigger interface allows jumped-in driving with Ares Alpha assault rifle for mobile fire support.
- Juryrigger Quality:** Essential for field repairs on drones and vehicles, providing +2 dice and -1 threshold for temporary fixes.
